City Utilities

August 22, 1996

Dear Council Members:

An Administrative Order issued by the U.S. Environmental Protection Agency (EPA) to the City requiring the development of a Combined Sewer System Operational Plan (CSSOP). The Administrative Order lists several minimum controls including "Proper operation and regular maintenance programs for the sewer system..." and "Maximum use of the collection system for storage".

City Utilities has developed a proactive maintenance program driven by the inspection of sewer lines. Schedules for line repairs, cleaning, root removal, and grease removal are prompted by proactive inspections, such as televising and "proofing". In the CSSOP, the City committed to a schedule of sewer line evaluation. The commitment for 1996 includes televising of 200,000' of large diameter (37'+) combined sewer pipe. This project exceeds Water Pollution Control Maintenance's resources for 1996.

If this bid is approved, Hasselrig Construction Company will provide all materials, equipment, and services to inspect the designated pipelines. Hasselrig will furnish all labor, materials, accessories, equipment, tools, transportation, services and technical competence for performing all operations required to professionally execute the internal inspection of sewers in strict accordance with the specification and applicable drawings, and subject to the terms and conditions of the contract. Hasselrig has the capabilities and experience to complete this project.

Thank you,

Mark R. Essex
CSO Program Manager

DIGEST SHEET

TITLE OF ORDINANCE: Special

DEPARTMENT REQUESTING ORDINANCE: Purchasing

SYNOPSIS OF ORDINANCE: An ordinance approving the award of I.T.B. No. 7317 for the televising of 200,00 lf of 37" and larger sewer pipe for the Water Pollution Control Maintenance Department.

IF NOT LOWEST, WHO WAS AND WHY WERE THEY NOT AWARDED:

EFFECT OF PASSAGE: The City has committed to televise 200,000 lf of large diameter (37"+) combined sewer pipe in 1996. This commitment is included in the City's Combined Sewer System Operational Plan (CSSOP) submitted to U.S. EPA and IDEM. The contractor will provide all materials, equipment, and services to inspect the designated pipelines.

IF REPLACEMENT, WHAT NECESSITATES:

EFFECT OF NON-PASSAGE: Failure to approve this purchase will put the City in violation of commitments made to EPA and IDEM and put the City in jeopardy of fines. The data collected from this service is essential to implementation of proactive inspections, repairs, and replacements of the City's sewer system.
